**RE: APRIL 2015 RESULTS OF INTERIM ACME CREEK MONITORING AT GRAND TRAVERSE TOWN CENTER, ACME, MICHIGAN**

Dear Mr. Iacoangeli:

The purpose of this letter is to transmit the results of interim surface water monitoring of Acme Creek that was completed by Horizon Environmental Corporation (“Horizon”) on behalf of the Village at Grand Traverse, LLC (“VGT”), in relation to VGT’s development of the Grand Traverse Town Center (“GTTC”) site in Acme Township, Grand Traverse County, Michigan.

The surface water monitoring results presented here are from sampling completed on April 2, 2015, in accordance with the interim monitoring provisions of the Acme Creek Monitoring Plan, issued to Acme Township for review and consideration on December 5, 2014. Consistent with that plan, surface water samples were collected from Acme Creek at three locations: one upstream of the GTTC site and two downstream (see enclosed Figure 1). This rain event deposited 0.19 inches of rain at the site on April 2, 2015 between approximately 10:35 am and 3:30 pm. Samples were field analyzed for turbidity and temperature and were also submitted for laboratory analysis of total suspended solids (“TSS”). The results of this sampling event are summarized as follows:

Acme Creek Sampling Location	Sample Date	Sample Time	Temp. (°C)	TSS (mg/L)	Turbidity (NTU)
Upstream (at property line)	4/2/15	2:40 pm	6.4	<5.0	6.22
Downstream (at property line)	4/2/15	3:00 pm	6.3	<5.0	7.74
Downstream (at M-72)	4/2/15	3:15 pm	6.3	<5.0	8.18

Mr. John Iacoangeli

May 5, 2015

Page 2

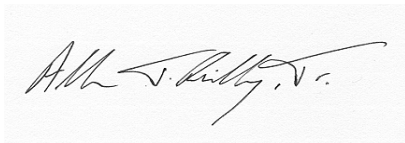

Field analyses for turbidity were completed using a Hach 2100P portable turbidimeter. Laboratory analytical reports of TSS results for these samples are presented as Attachment I.

In all sampling locations during April 2 sampling event, Acme Creek was observed to be visually clear at the time of sampling. TSS levels were non-detect and temperature and turbidity levels in Acme Creek immediately downstream of the GTTC site are consistent with those observed immediately upstream of the GTTC site.

If you have questions or require additional information regarding this sampling event, please contact me at 616.554.3210.

Sincerely,

HORIZON ENVIRONMENTAL
